Q & A Session To Be Held!

Monday, January 30, 2012

Time: 7:00-8:30pm

Mahopac High School Auditorium

At our last Hope Forum , Michael Nerney captivated our audience with information on the relationship between human brain development, child/adolescent behavior, and risk taking. Please join us as Mr. Nerney refreshes our memory and brings us cutting edge information. His expertise will support our efforts to help our children to safely navigate through life with positive decisions and to avoid risky behaviors. If you've ever wondered why smart kids sometimes do things that *aren't* so smart, then please know that you are not alone. This presentation is for all of us!
